

# Product Packaging Overview

Grey Cap – 12 years and older, Ready to use

Shipping, Handling, & Storage Considerations: Global Markets | CMA | '12 years and older, Ready to use'

## Product Packaging Overview

**VIAL**  
Single multi-dose vial contains 6 doses per vial

**10-PACK CARTON\***  
Single carton contains 10 vials per carton  
*This is the EA*

**FREEZER CASE**  
Single freezer case is a sealed box in the thermal shipper containing 48 – 72 cartons depending on manufacturing location

**THERMAL SHIPPERS**  
Bulk Shipper  
Contains 8 Freezer Cases per Shipper and 1 Real Time Monitoring Device\*\*  
Single Medium ULT  
Contains 1 Freezer Case per Shipper or 1 Blue Foil Bag and 1 Real Time Monitoring Device\*\*

**NOTE:** The vaccine cap color, cartons, and artwork will differ based on the manufacturing location, supplier, and/or indication. The images above are illustrative and shows the cartons for the '12 years and older, Ready to use' presentation. The estimated size of the freezer cases are subject to change based on plant of manufacture.

\*10-pack cartons are the product configuration available for '12 years and older, Ready to use'. Select markets may receive the 195-vial tray product configuration based on availability and prior market alignment.  
\*\*The logger within each box may vary slightly based on select markets. An additional version of the Controlant temperature monitoring device, the Controlant SAGA logger, may be available.

- From a **product packaging design perspective**, there are basically **two differences**: the cap of the vial and the stripes in the Single **10-Pack-Carton (= 1 EA)**, which is **Grey** for “12 years and older, Ready to use” and **Orange** for “5 to <12 years old, Dilute to use”. All others packaging configuration **remains the same\***:

- ✓ **10-pack carton** contains **10 vials** and it dimensions are **37x39x89mm**
- ✓ **Single freezer case** contains **60 cartons** (initial launch for **EU markets**) and it dimensions are: **237x197x208mm**
- ✓ **Single Medium ULT** contains **1 freezer case per shipper**

PGS

**\*Info:** The focus of this slide is sharing Packaging characteristics only. Information about doses per vial, dilution, fill volume among others can be partially checked on previous slide and details on Global Readiness website <https://www.pfizer-biontechcovid19logistics.global/>
